CLEANING SYSTEMS

73

Series

DUAL CHAMBER
DUAL CONTROL

High Efficiency Stationary NG/LP Fired Pressure Washer

- Operates at **98% efficiency**
- **38% fuel savings** on average
- Reduces maintenance costs
- Lowers ventilation costs (CPVC)
- Reduces negative environmental impact

The 73-Series utilizes dual heat chambers, dual pump systems and has two independent sets of controls. Each control set operates a pump via a clutch-drive. This unit provides the benefits of two totally independent pressure washers driven off a single motor and on one chassis. It is ideal for true independent two gun operation. With a long list of exclusive features, the 73-Series is sure to exceed your particular needs.

A Closer Look at the Features:

Powdercoated Enclosed Steel Cabinet
Reduces maintenance costs by protecting internal parts.

Panel Mounted Controls & Diagnostic Lights
Accessible for your ease of use & monitoring.

Dual Adjustable Soap Controls
Allows your precise metering of expensive soap.

Pressure Relief Valve
Prevents injury and cost due to an over-pressurized system.

Dual Adjustable Temp. Controls
Allows your precise regulation of temperature.

Dual Clutch Drives
Save \$ by lengthening the life of your pump.

Exclusive Patented Exchange Technology
Saves your hard earned fuel dollars & reduces your carbon footprint.

Inlet Solenoid Valve
Takes pressure off of internal parts extending their life & saving you \$.

Heavy Duty Electric Motor
Built strong to handle your roughest demands.

Stainless Steel Float Tank w/ Low Water Shut-off
Saves repair \$ by maintaining the correct water level & protecting the system from damage.

Exclusive Coil Design
Heats your water quicker & more efficiently.

Remote Ready
Allows for the easy addition of a remote to operate your machine from another location.

Automatic Backdraft Dampers
Prevents backdraft from reaching machine components & entering your building.

4" or 5" CPVC Venting
Saving substantial venting costs.

Industrial Strength Triplex Pumps
Lower maintenance costs due to long life & durability.

Heavy Duty Cabinet & Formed Steel Legs
Maintenance free durability.

Machines above shown with their easy access latching, removable steel compartment covers off.

FEATURES (not shown on breakout):

- ETL Listed
- Watertight Electrical Panel
- Laminate High Visibility Control Panel Overlay
- Two Gun Operation w/Dual Outlets & Controls
- Diagnostic Control Monitoring Lights (x2)
- Hour Meter w/Break-In & Oil Change Alerts
- Automatic Shutdown Timer
- Dual Combustion Chambers
- ASTM A53 Schedule 80 Steel Heating Coil
- Electronic Ignition

- Dual Pressure Relief Valves
- Exclusive Low Pressure Manifold Plumbing
- JIC Fittings Assuring Leak Free Connections
- Soap Solenoid
- Trigger Gun Controls
- Wire Braid Discharge Hoses
- Quick Couple Stainless (x2) Steel Nozzles
