

Waste Oil Heater

The Eliminator 120 is a supplemental heating source which produces 120,000 btus of free heat. The Eliminator 120 will burn almost any type of waste oil with the exception of synthetic oils. It will also burn diesel fuel and home heating oil. Burning your waste oil is a great way to save money and also eliminate the transportation costs and hazards associated with disposing of your waste oil. Service stations, garages and warehouses are excellent locations for our Eliminator 120.
